

Republic of the Philippines  
OFFICE OF THE PRESIDENT  
**COMMISSION ON HIGHER EDUCATION**

**CHED MEMORANDUM ORDER (CMO)**

No. 06  
Series 2012

**SUBJECT: ADDENDUM TO CMO 39, S. 2006 ENTITLED, POLICIES STANDARDS AND GUIDELINES FOR BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION (BSBA) PRESCRIBING ADDITIONAL ELECTIVES ON SERVICE MANAGEMENT FOR BUSINESS PROCESS OUTSOURCING**

In accordance with the pertinent provisions of Republic Act (RA) No. 7722, otherwise known as the "Higher Education Act of 1994," and for the purpose of rationalizing the undergraduate education in the country **pursuant to new policy initiatives on outcome based education and harmonization of competencies with global standards in specialized courses**, with the end view of keeping pace with the demands of local and international business environments to become even more globally competitive, particularly in the Business Process Outsourcing (BPO) industry, the following policies, standards and guidelines are hereby adopted and promulgated by the Commission.

**ARTICLE I  
INTRODUCTION**

**Section 1.** The Philippine BPO industry has been **evolving** as the "sunshine industry" for significant **reasons**. Steadily growing since the early 2000's, the industry added over 100,000 jobs in 2010 growing faster than the previous year, accumulating more than 500,000 full-time employees and more than a million indirect employees by end of 2010. The industry also **generated** \$8.9B in revenues, about 4.8% of GDP in 2010.

Supply and availability of qualified personnel, however, remains the biggest **challenge in order to keep the global competitiveness and leadership position of the industry today**. Thus, the **urgency for concerted policies and programs** focusing on building competency in human resource development by way of cooperative partnerships among **stakeholders in government, academe and industry for planning, sourcing and developing sustainable talent pool for the industry**.

Pursuant to the national development plan for 2011-2016, the roadmap for the BPO industry as prepared by the Business Processing Association of the

Philippines (BPAP), the respective Memorandum of Agreement (MOA) between the Commission on Higher Education and BPAP and similarly with the Management Association of the Philippines (MAP), their members and other partner associations, collectively collaborated to develop a specialized track in service management focusing on the BPO industry.

The specialized track in service management **following the CHED policy for outcome based education** aims to prepare students, from all types of traditional courses, for a career in the BPO industry by equipping them with the required competencies needed for entry-level positions and **for further career development.**

The Service Management Specialization Track uses an integrated approach and takes into consideration the interrelationships among the functional areas of business, **notably in information and communication technology** as well as sensitivity to the economic, social, technological, legal, and international environment in which business must operate. The objective of the program is not simply to impart basic business knowledge, but to instill and nurture important qualities and skills in our students that are essential for future business leadership and organizational success in the industry **in a global market.**

## **ARTICLE II AUTHORITY TO OPERATE**

**Section 2.** All higher education institutions with existing permit and recognition to offer the Bachelor of Science in Business Administration/Management need not apply for a separate authority to offer the Specialization Track in Service Management for Business Process Outsourcing.
